

The Diet Cure Quick Symptom Questionnaire

Source <http://www.dietcure.com/Questionnaire2.html>

Many thanks to Julia Ross, the author of *The Diet Cure*, for her permission to place this questionnaire on the Total Fitness website.

My goal in *The Diet Cure* is to stop your food cravings, address your eating and weight problems, and eliminate your mood swings and negative obsessions about your body. But first we have to determine what is causing these problems.

Here is a mini-questionnaire similar to the ones we administer at our clinic. Its eight key sections will help you to identify your particular physical imbalances. *Circle the number next to any symptom that applies to you and follow the directions at the end of each section to calculate your score.* For each section there are corresponding chapters in the Diet Cure that will tell you exactly what to do to correct your imbalances and clear away your symptoms.

1. Is depleted brain chemistry the problem?

- 4 Sensitivity to emotional (or physical) pain; cry easily
- 4 Eat as a reward or for pleasure, comfort, or numbness
- 4 Worry, anxiety, phobia, or panic
- 4 Difficulty getting to sleep or staying asleep
- 3 Difficulty with focus, attention deficits
- 2 Low energy, drive, and arousal
- 4 Obsessive thinking or behavior
- 4 Inability to relax after tension, stress
- 3 Depression, negativity
- 4 Low self-esteem, lack of confidence
- 4 More mood and eating problems in winter or at the end of the day
- 3 Irritability, anger
- 4 Use alcohol or drugs to improve mood

Total Score _____ If your score is over 10, the answer is YES to the above question and read chapter 1 in *The Diet Cure*.

Please Turn Over

2. Are you suffering because of low-calorie dieting?

- 4 Increased cravings for and focus on food; overeating
- 4 Regain weight after dieting, more than was lost
- 3 Increased moodiness, irritability, anxiety, or depression
- 3 Less energy and endurance
- 3 Usually eat less than 2,100 calories a day
- 3 Skip meals, especially breakfast
- 3 Eat mostly low-fat carbohydrates (bagels, pasta, frozen yogurt, and others)
- 2 Constantly think about weight
- 2 Use aspartame (Nutrasweet) daily
- 2 Take Prozac or similar serotonin-boosting drugs
- 2 Have become vegetarian
- 3 Have decreased self-esteem
- 4 Have become bulimic or anorectic

Total Score _____ If your score is over 12, the answer is YES to the above question. read Chapter 2 in The Diet Cure
